

# Master of Public Health

## College of Health Professions (COHP)

### About the College

The College of Health Professions has a mission to prepare students to function as highly competent, collaborative, and socially responsible health care professionals in a dynamic health care environment. The outstanding faculty provide student centered education and clinical educational experiences, promote and provide support for continued professional development of practicing health care professionals, conduct research that relates to critical health care issues and populations, and provide services to surrounding communities in West Virginia.

The COHP prides itself on a rich history in health professions education and has graduated thousands of health care professionals who continue to provide high quality clinical care, professional education and research throughout various locations.

### Coursework - Sample

- Introduction to Public Health
- Public Health Biology
- Epidemiology
- Environmental Health
- Social Behavior Aspects of Public Health
- Public Health Law and Ethics
- Statistical Methods
- Public Health Services
- Introduction to Health Care Policy
- Health Informatics and Technology

### Master of Public Health

Marshall University's Master of Public Health program combines a broad emphasis on practical training and small class sizes to prepare students for success upon graduation. Because of the extensive and interdisciplinary curriculum, graduates are well prepared for careers in public health and health care both domestically and internationally.

The Appalachian location and international research opportunities offer students countless opportunities for local and overseas community outreach and unforgettable real world learning experiences.

Marshall University is one of the only MPH programs in the US to offer a minor in Rural Health.

For more information > [www.marshall.edu/public-health](http://www.marshall.edu/public-health)

The MPH program at Marshall University has two concentrations to give students the option to tailor their education toward their desired career path:

- Global and Community Health
- Research, Evaluation and Policy

## INTO Marshall University Pathway Program

The innovative Pathway programs offered at INTO Marshall are designed to develop international students' academic knowledge and strengthen their language ability and study skills, enabling them to progress successfully to a Marshall University degree program.

Students who successfully complete a Pathway program are assured progression to a Marshall degree program upon submission of additional required application materials. Other benefits include:

- Full integration with domestic and international students on the Marshall campus
- Access to all Marshall cultural and athletic events and activities including the Recreation Center
- Classrooms and accommodations in the heart of Marshall's compact and accessible campus
- Highest level of support for student success
- Individual supplemental tutoring for any subject
- Highly trained and experienced university instructors
- Academic advising throughout the program
